

ELIMPO POW-TL3M

Controller for dimmable TL/Fluo 0-10V or 1-10V

- synchronous tension or current controle of:
 - dimmable electronic TL-supply 0-10 or 1-10V
 - 0 - 10Vdc controlled dimmers
- ON/OFF and dimming with only one button
- micro-processor technology
- mounted on DIN-rail, 3 modules
- automatic dim function with sensor *
- built-in relays for total control of supply/ballast
- energy saving, extended lifetime supply/ballast
- 2 years warranty

connection:	screw connectors
power:	240V - 10A
dim power:	0-10Vdc / 50mA
temperature:	Tc 55 °C at full load
dimensions:	3 modules
weight:	200 gr
security:	short circuit protection on 10Vdc
installation:	DIN-rail
application:	0-10Vdc dimmers, dimmable electronic Fluo supplies, controle of light loads functioning as adjustable supply
control:	push button, open collector (very low tension), sensor*

* option : POW-SENSOR
